~~March~~.....

Saint-Saëns Vars.....

Tidy opening and generally neat ensemble with well timed dynamics. Fanfare after 90 are nice & clear. 10.8 is playful and you capture the musical spirit with style. Link into 304 is smooth. Intonation not perfect after 304, but securely played. 328 melody is well balanced. Cresc at 348-349 is too exaggerated for my taste - the phrasing should breathe. Intonation into 360 not good, but horns make amends and f is convincing. Don't over-blow though - there is no need!

A musical and engaging performance which though not technically perfect, was very convincing
